BUILT FOR MISSION.
ENGINEERED TO PERFORM.

MOUNTING SYSTEM

Drive On Mast Mounting System Mk2

EQUIPMENT SUPPORT SYSTEM

Drive On Mast Mounting System Mk2

OVERVIEW

The **Drive On Mast Mounting System Mk2** is a robust, rapid-deployment mast support solution manufactured from fully welded steel. Its folding mast post stows flat and pivots upright for **deployment in under one minute.**

Fully adjustable forwards, rearwards and laterally, the system can be levelled on uneven ground and is **suitable for masts up to 200mm tube diameter**. For masts with **a retracted height above 2.1m**, the **upper support system is advised** to provide additional stability.

KEY FEATURES

- Mast Mounting Post which stows flat and pivots to vertical
- Rapid deployment in under 1min
- Fully adjustable forwards, rearwards, and laterally enabling level deployment on uneven ground
- 8 fixing holes in base-bars for versatility (securing to hardened surfaces)
- Mast base is grounded for increased stability
- 2 Part Adaptor Clamps available for all mast diameters (sold separately)
- Magnetic spirit level provided
- Heavy Duty Carry Bag in either black or NATO green
- Upper support system available for taller retracted masts to provide additional stability

SPECIFICATIONS

Material	Robust, durable fully welded steel
Height	(stowed) – 195mm (deployed) – 900mm
Width	320mm
Length	940mm
Weight	23kg
Colour	Green, Black or Silver
